## Profile

I am looking to further my experience by taking on new challenges. As a conceptually oriented problem solver, I dive into any design challenge available. As a result of the past few years of experience, I am ready to explore new available opportunities in my profession.

## Professional Experience

2020 – present

### Web designer / UI designer Freelancer

- Produced professional creative concepts and solutions and assisted in the website design development to ensure that the clients' needs were fully met.
- Completed presentations, collaborated and worked closely with other designers and developers.
- Designed and created user-friendly websites
- Researched and chose colors, fonts, and layouts that enhanced the user experience
- Worked with developers to ensure that websites met specifications
- Tested websites across various browsers and devices to ensure compatibility
- Created prototypes of websites to show clients
- Create and tested various animations to meet clients' needs
